

Face Painting & Glitter Tattoos *for all occasions*

"Face painting is all about having fun, whether you want to mimic a cuddly puppy dog, a fierce tiger, a fairy princess or a terrifying and ugly monster (there are many types of those!), or simply wish to be adorned with flowers or dragons, there really is something for every taste.

It's not just about faces either, you can have just an arm, shoulder or ankle design (or perhaps even a baby bump!) I hope you enjoy my designs as much as I enjoy painting them"

Fun Days

Bookings can be taken for events and parties in Hertfordshire, Central and North London and parts of Essex & Kent.

Please email or telephone with details of location, date, time and style of painting (eg general event or themed party) and I will provide a price and booking form by return.

For charity events, I am usually able to attend for free on a public pay per face basis, making an agreed donation to the Charity.

I am a member of FACE, the international face painting association and have enhanced CRB status and full insurance.

The face paints used are water-based and non-toxic, they wash off easily with soap and water.

Face paint is not recommended for children under 2 years old and I generally only paint faces for children 3 years and above. (I can paint small designs on the hand or arm instead).

You may get a tan line where the paint has been if outside on a hot sunny day.

Clothing that has been in contact with face paint should be COLD soaked overnight in washing powder before washing normally.

The glitter I use is cosmetic grade, designed specially for use on the face or body.

Glitter Tattoos last 3-10 days and will withstand baths, showers and swimming. To remove sooner, rubbing in a little essential, olive or baby oil will do the trick.

It is very unusual to have a reaction to the paints used but, as with any cosmetics, some people may be sensitive to any/all of the ingredients. We will not be held liable in the event of any reaction or paint transferring to clothes or other surfaces.

What will you mimic?
